Siapa Adalima ?

Adalima adalah sebuah merk atau brand balon, yang diproduksi oleh pabrik kami di Indonesia.

Kami bertujuan memberikan balon yang berkualitas dan aman untuk masyarakat di Indonesia. Produk kami sudah diterima di negara-negara Eropa seperti United Kingdom dan Jerman (1933), di mana persyaratan dan tuntutan atas campuran kimia yang membahayakan diregulasi dengan sangat ketat.

Kami bekerjasama dengan para dekorator terkemuka di Indonesia dengan mensupply balon kami, yang kualitasnya sangat disukai. Dengan lebih dekat terhadap para pengguna langsung, kami berusaha selalu menyesuaikan produk kami sesuai kebutuhan. Kami juga menyediakan pelatihan dalam bentuk Adalima Academy.

Keamanan

Balon kami yang diproduksi oleh pabrik kami yaitu PT. Jaya Latexindo Internusa, adalah balon yang sama yang juga diterima dan dikonsumsi oleh pasar di Amerika Serikat, Jerman dan Negara Eropa lainnya, Korea Selatan, Afrika Selatan dan negara-negara lainnya.

Memang bahayanya balon apa sih?

Nitrosamine yang bereaksi dengan air liur (karsinogenik), logam berat dari pewarna, Substance of Very High Concern, Phthalate, dan lainnya adalah bahan kimia yang sangat dikontrol di pasar Eropa, termasuk pada produk balon yang tercakup dalam kategori produk anak-anak.

Oleh karena itu, janganlah asal pilih, pilihlah kualitas terbaik untuk keamanan anak-anak kita.
